

Safety Warnings

CAUTION: RISK OF ELECTRIC SHOCK. DO NOT TAMPER. NO SERVICABLE PARTS INSIDE. IMPORTANT SAFETY INSTRUCTIONS. READ ALL INSTRUCTIONS BEFORE INSTALLING AND USING THIS PRODUCT. KEEP IT FOR FUTURE REFERENCE.

When using electrical appliances, basic precautions should always be followed to reduce the risk of fire, electric shock, and injury to persons, including the following:

1. This product is intended for use by individuals familiar with its operation. Children and persons with reduced physical, sensory, or mental capabilities should not operate this product unless supervised.
2. Ensure your power source conforms to the electrical requirements of this product.
3. Only use distilled water, and do not pour water into the central pipe. This will prevent your humidifier from functioning properly.
4. Do not attempt to hardwire this product. Performing any retrofitting actions may result in personal injury and/or electrical damage and will void this product's warranty.
5. Always unplug humidifier when not in use. (This item may be omitted if the humidifier is provided with a dock-operated switch).
6. Do not operate any humidifier with a damaged cord or plug or after the humidifier malfunctions, has been dropped or damaged in any manner. Discard humidifier or return to authorized service facility for examination and/or repair.
7. Do not use outdoors.
8. This humidifier is not intended for use in bathrooms, laundry areas, and similar indoor locations. Never place humidifier where it may fall into a bathtub or other water containers.
9. Do not run cords under carpeting. Do not cover cords with throw rugs, runners, or similar coverings. Do not route cords under furniture or appliances. Arrange cords where it will not be tripped over and away from traffic areas.
10. To disconnect humidifier, turn controls to OFF, then remove plug from outlet.
11. Do not insert or allow foreign objects to enter any ventilation or exhaust openings as this may cause an electric shock or fire or damage the humidifier.
12. To prevent a possible fire, do not block air intakes or exhausts in any manner. Do not use on soft surfaces, like a bed, where openings may become blocked.

Safety Warnings

13. Use this humidifier only as described in this manual. Any other use not recommended by the manufacturer may cause fire, electric shock, or injury to persons.
14. Make sure that no pieces of polystyrene or other packaging material have been left between elements of this product. It may be necessary to pass over this product with a vacuum cleaner. Dispose of all packaging and product materials in an environmentally responsible manner.
15. Prior to cleaning, storage, or any time when this product is not in use, turn off the power and unplug the cord to allow it to cool. Clean this product regularly, only as instructed in this manual. Do not use gasoline, thinners, solvents, ammonias, or other chemicals for cleaning.
16. **IMPORTANT** - This product may have a US polarized plug (one blade is wider than the other). To reduce the risk of electric shock, this plug is intended to fit in a polarized outlet only one way. If the plug does not fit fully in the outlet, reverse the plug. If it still does not fit, contact a qualified electrician. Do not attempt to tamper with this safety feature.
17. Do not dispose of this product with household waste. Dispose of it at an appropriate collection point for recycling electrical and electronic equipment, in accordance with Directive 2012/19/EU (WEEE).
18. This product complies with the essential requirements of Directive 2014/30/EU (EMC) and Directive 2014/35/EU (Low Voltage).
19. After switching off, wait until all heating elements and moving parts (if any) have come to a complete stop before servicing or cleaning.

DO NOT attempt to repair this product yourself!

All service and/or repairs must be done by an authorized technician and/or electrician. Contact our customer service department at support@acinfinitly.com or 626-923-6399 for product and warranty assistance.

Sicherheitshinweise

VOORSICHT: GEFÄHR EINES ELEKTRISCHEN SCHLAGS, NICHT MANIPULIEREN, KEINE VOM BENÜTZER ZU WARTENDEN TEILE IM INNEREN.

WICHTIGE SICHERHEITSHINWEISE. LESEN SIE ALLE ANWEISUNGEN, BEVOR SIE DIESES PRODUKT INSTALLIEREN UND VERWENDEN. BEWAHREN SIE DIESE ANLEITUNG FÜR SPÄTERE BEZUGNAHME AUF.

Bei der Verwendung von elektrischen Geräten sollten stets grundlegende Vorsichtsmaßnahmen beachtet werden, um das Risiko von Feuer, elektrischem Schlag, Verletzungen oder Überhitzung zu verringern. Dazu gehören insbesondere folgende Punkte:

1. Dieses Produkt ist für die Verwendung durch Personen vorgesehen, die mit seiner Funktionsweise vertraut sind. Kinder sowie Personen mit eingeschränkten physischen, sensorischen oder geistigen Fähigkeiten dürfen dieses Produkt nur unter Aufsicht verwenden.
2. Stellen Sie sicher, dass Ihre Stromquelle den elektrischen Anforderungen dieses Produkts entspricht.
3. Verwenden Sie nur destilliertes Wasser und gießen Sie kein Wasser in das zentrale Rohr. Dies würde die ordnungsgemäße Funktion Ihres Luftbefeuchters beeinträchtigen.
4. Versuchen Sie nicht, dieses Produkt fest zu verdrahten. Nachrüstungen können zu Verletzungen und/oder elektrischen Schäden führen und führen zum Erlöschen der Garantie für dieses Produkt.
5. Ziehen Sie den Stecker immer, wenn der Luftbefeuchter nicht in Gebrauch ist. (Dieser Punkt kann entfallen, wenn das Gerät mit einer Zeitschaltuhr ausgestattet ist).
6. Betreiben Sie keinen Luftbefeuchter mit beschädigtem Kabel oder Stecker oder nach einem Defekt, Sturz oder sonstiger Beschädigung. Entsorgen Sie das Gerät oder bringen Sie es zu einer autorisierten Servicestelle zur Überprüfung und/oder Reparatur.
7. Nicht im Freien verwenden.
8. Dieser Luftbefeuchter ist nicht für den Einsatz in Badezimmern, Waschräumen oder ähnlichen Innenräumen vorgesehen. Stellen Sie ihn niemals an Orten auf, an denen er in eine Badewanne oder andere Wasserbehälter fallen könnte.
9. Verlegen Sie keine Kabel unter Teppichen. Decken Sie Kabel nicht mit Teppichläufern oder ähnlichen Abdeckungen ab. Führen Sie keine Kabel unter Möbeln oder Geräten entlang. Legen Sie Kabel so, dass keine Stolpergefahr besteht und sie nicht durch Laufwege führen.
10. Um den Luftbefeuchter vom Stromnetz zu trennen, stellen Sie die Bedienelemente auf AUS und ziehen Sie anschließend den Stecker aus der Steckdose.
11. Setzen Sie keine Fremdkörper in die Lüftungs- oder Abluftöffnungen ein und lassen Sie auch keine eindringen, da dies einen elektrischen Schlag, Brand oder Geräteschaden verursachen kann.

Sicherheitshinweise

12. Um Brandgefahr zu vermeiden, blockieren Sie die Luftzufuhr- oder Abluftöffnungen keinesfalls. Verwenden Sie das Gerät nicht auf weichen Oberflächen (z. B. Bett), da Öffnungen blockiert werden könnten.
13. Verwenden Sie diesen Luftbefeuchter nur wie in dieser Anleitung beschrieben. Jede andere Verwendung, die nicht vom Hersteller empfohlen wird, kann zu Brand, elektrischem Schlag oder Verletzungen führen.
14. Stellen Sie sicher, dass keine Stücke von Styropor oder anderen Verpackungsmaterialien zwischen den Elementen des Geräts verbleiben sind. Es kann erforderlich sein, das Gerät mit einem Staubsauger abzusaugen. Entsorgen Sie alle Verpackungen und Materialien umweltgerecht.
15. Schalten Sie das Gerät aus, ziehen Sie den Stecker und lassen Sie es abkühlen, bevor Sie es reinigen, lagern oder wenn es nicht in Gebrauch ist. Reinigen Sie das Gerät regelmäßig nur gemäß den Anweisungen in dieser Anleitung. Verwenden Sie keine Benzin, Verdünnern, Lösungsmittel, Ammoniak oder andere Chemikalien zur Reinigung.
16. **WICHTIG** – Dieses Produkt kann einen US-polarisierten Stecker haben (eine Klinge ist breiter als die andere). Um das Risiko eines elektrischen Schlags zu reduzieren, passt dieser Stecker nur in eine polarisierte Steckdose. Wenn der Stecker nicht vollständig passt, drehen Sie ihn um. Wenn er immer noch nicht passt, wenden Sie sich an einen qualifizierten Elektriker. Manipulieren Sie diese Sicherheitsvorrichtung nicht.
17. Entsorgen Sie dieses Produkt nicht über den Hausmüll. Bringen Sie es zu einer geeigneten Sammelstelle für Elektro- und Elektronik-Altgeräte gemäß Richtlinie 2012/19/EU (WEEE).
18. Dieses Produkt erfüllt die grundlegenden Anforderungen der Richtlinie 2014/30/EU (EMV) und der Richtlinie 2014/35/EU (Niederspannung).
19. Nach dem Ausschalten warten Sie, bis alle Heizelemente und beweglichen Teile (sofern vorhanden) vollständig zum Stillstand gekommen sind, bevor Sie Wartungsarbeiten oder Reinigungen durchführen.

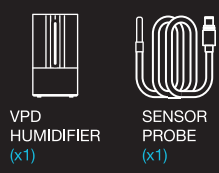

Versuchen Sie NICHT, dieses Produkt selbst zu reparieren!

Alle Wartungs- und/oder Reparaturarbeiten müssen von einem autorisierten Techniker und/oder Elektriker durchgeführt werden. Wenden Sie sich für Produkt- und Garantieunterstützung an unseren Kundendienst unter support@acinfinitly.com oder 626-923-6399.

CLOUDFORGE T3

CLOUDFORGE T7

ALL MODELS

Installation

Water Refill

MANUAL FILL

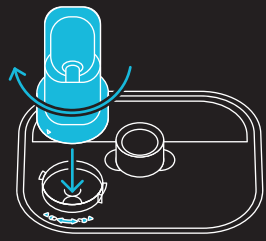

Add water into the tank through the lid panel. You may detach the tank to fill it with water.

We recommend using distilled water to reduce the amount of mineral build-up.

Do NOT pour water into the central pipe. This will prevent your humidifier from functioning properly.

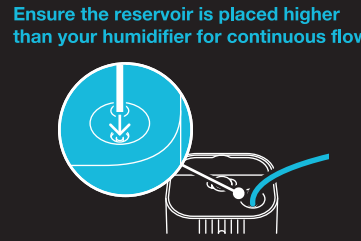

STEP 1 – AUTOMATIC FILL

Twist the auto-fill valve to the top lid nozzle and connect it to your water reservoir.

STEP 2 – AUTOMATIC FILL

Attach the included water tube to the top lid nozzle and connect it to your water reservoir.

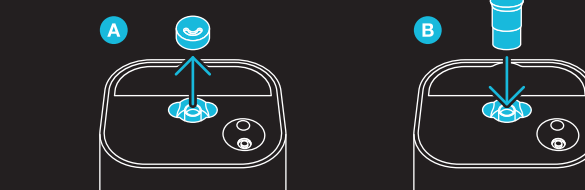

Installation

Attachments

CLOUDFORGE T3

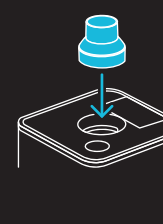

You may swap the directional flow cap with the included flexible hose for extended targeted flow.

CLOUDFORGE T7 – PIPE BASE

Top the center lid opening with the included base.

You may install either the included hose or pipe to extend the reach of your humidifier.

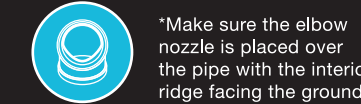

Installation

Attachments

CLOUDFORGE T7 – PIPES

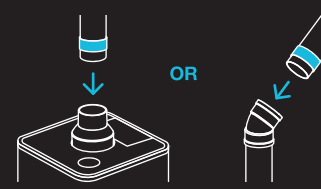

Attach the pipe into the base, followed by your choice of nozzle:

- Elbow nozzle* for unidirectional flow
- 5-way nozzle for omnidirectional flow

CLOUDFORGE T7 – USING YOUR OWN PIPES

You may use your own PVC pipes to extend the reach of your humidifier. Line the pipe with the included elastic band and attach it to the base or elbow nozzle.

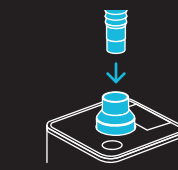

Installation

Attachments

CLOUDFORGE T7 – HOSE

Attach the flexible hose to the base for targeted flow.

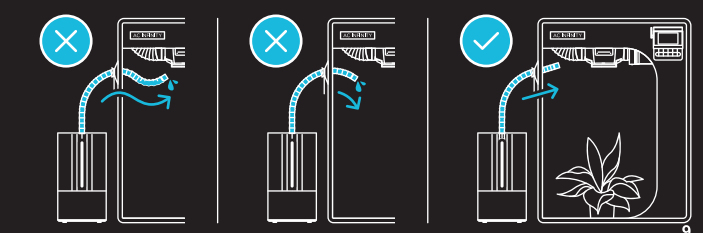

ROUTING THE HOSE

Direct the hose to the highest duct port. Do not bend the hose in a U-shape. Doing so will result in water pooling, which will spill into puddles and block humidity from emitting. This will also result in water flowing back into the base, which can overflow it and cause leakage.

In addition, make sure the hose is sloped upwards when routing it to your grow tent. Sloping the hose downward will result in condensation building up in the hose. This may further result in water dripping out and creating a puddle.

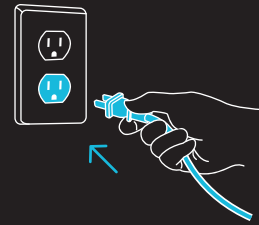

Dry the hose after each use.

Powering and Setup

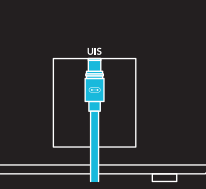

STEP 1

Plug your humidifier's power plug into an outlet to power it.

STEP 2

Plug the sensor probe into the back of your humidifier. The port must be dry and capped when not in use to keep liquid and debris out.

Only use the included gray sensor with this device to prevent damage. Do not use sensors that were packaged with other devices.

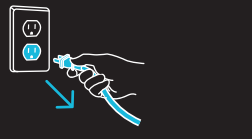

Plugging the probe into the humidifier is not necessary if you are using a UIS controller, as the connected controller and its probe will override all onboard settings.

Cleaning

Exchange the water in the reservoir at least once every 4 days. Clean and maintain your humidifier and its filter piece at least once a week. The filter piece is used to catch any debris or particles that may be in the water.

STEP 1

Unplug your humidifier and remove the tank from the base.

STEP 2

Pour out any water sitting in the base. Pour two cups of distilled water and one tablespoon of vinegar into the base. Let it sit for five minutes.

STEP 3

Remove any build-up from the nebulizer(s) using the included brush.

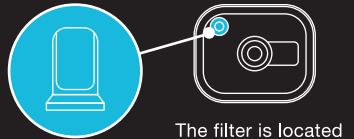

Cleaning

STEP 4

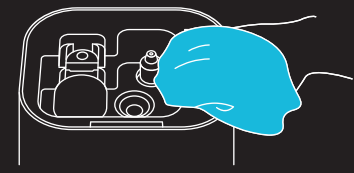

Wipe away any debris caught in the filter using the included brush.

Remove the tank lid to reach the internal filter.

STEP 5

Pour out the vinegar water mixture and wipe the base dry. Replace the tank to finish.

Programming

1. POWER BUTTON

Turns your humidifier ON/OFF. First-time use defaults to level 6; subsequent uses restore the previous setting.

2. MODE BUTTON

Pressing the button increases the target setting. Hold to cycle past the target range until ON mode is activated.

3. LEVEL BUTTON

Cycles through the mode's speed levels 1-10 indicated by the row of dots on the display. Press the button to increase the level by one. Cycling past 10 will return to level 1.

4. AI SETTING

Turns the AI setting ON/OFF. When active, the system dynamically ramps levels as the humidity shifts further from your target, ensuring precision climate control.

5. DISPLAY SETTING

Toggles between humidity and VPD settings.

Programming

FACTORY RESET

Hold the power and humidity buttons together for 3 seconds to reset your humidifier and restore factory settings.

MUTE SOUND

Hold the power and display setting buttons together for 2 seconds to mute/unmute sound.

HIDE DISPLAY

Hold the display setting button for 3 seconds to hide the display. Press any button other than the power button to turn the display back on.

NO LONGER UPRIGHT

Displays whenever your humidifier falls or is tilted past a 45° angle. Your humidifier will pause programming, and its screen will flash until it is back to an upright position.

EMPTY/MISSING TANK

Displays whenever the water tank is empty. Your humidifier will pause programming until its tank is filled and replaced. Removing the tank will also trigger this alert icon, disappearing when you put the tank back in place.

INTERNAL MALFUNCTION

"E1" or "E2" displays, and programming will pause whenever your humidifier senses an internal malfunction. If this happens, turn off your humidifier, unplug it, and let it sit for a few seconds before restarting it.

If issues persist, contact our customer service department at support@acinfinitly.com or (626) 923-6399 for product and warranty assistance.

Programming

Advance Programming

This humidifier is compatible with specific controller models. Please visit our website www.acinfinitly.com for more information.

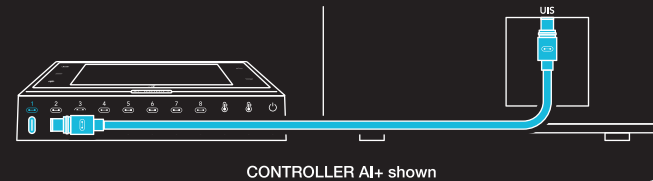

EXTENSION CABLE

Use the included UIS M-M extension cord to connect your humidifier to your controller (not included). The UIS port is located at the back of your humidifier.

Your controller will override all onboard settings, assume control (parameters must be adjusted on your controller), and shut off your humidifier's button functions when connected in this manner.

This port is used by either the sensor or the UIS extension cord and cannot be used simultaneously. If you connect the included sensor into your humidifier, you cannot connect your humidifier to a smart controller. If you wish to use the UIS extension cord, the only sensor that can be used is the one connected directly to your smart controller.

The port must be dry and capped when not in use to keep liquid and debris out.
