

PRODUCT WARNING

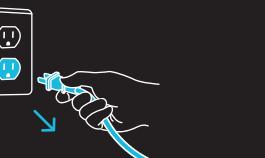

READ ALL INSTRUCTIONS BEFORE INSTALLING AND USING THIS PRODUCT. TO REDUCE THE RISK OF FIRE, ELECTRIC SHOCK, OR INJURY TO PERSONS, OBSERVE THE FOLLOWING:

- This product is not intended for use by persons (including children) with reduced physical, sensory, or mental capabilities, or a lack of experience with and knowledge, unless they have been given supervision or instruction concerning the use of the appliance by a person responsible for their safety.
- Extreme caution is required before leaving this product operating unattended. Ensure that all warnings have been properly followed and your environment is free of any potential safety hazards. This product must be operated in the upright position only.
- Ensure your power source conforms to the electrical requirements of this product.
- Do not attempt to hardwire this product. Performing any retrofitting actions may result in personal injury and/or electrical damage and will void this product's warranty.
- Be careful not to damage or cut the cords or wire insulation (covering). Do not permit wires to come in contact with any sharp edges.
- If the supply cord is damaged, it must be replaced by the manufacturer, its service agent, or similarly qualified persons in order to avoid a hazard.
- This product must not be used or placed in potentially hazardous locations such as flammable, explosive, electrical, or chemical-laden atmospheres.
- Do not cover any power cords with rugs or other fabric materials.

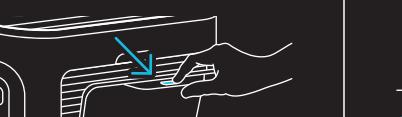

1

CLEANING

STEP 1
Power OFF your dehumidifier before unplugging it.

STEP 2
Press the rocket button at the top of the intake adapter to release the adapter from your dehumidifier.

STEP 3
Carefully remove the mesh filter from the intake adapter.

Wipe off any dust and debris from the filter and adapters using a damp cloth. Set aside to dry as needed.

DO NOT use detergent, solvents, or other such chemicals to clean it.

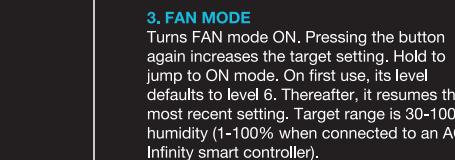

2

CLEANING

STEP 4
Reattach the mesh filter and intake adapter to your dehumidifier.

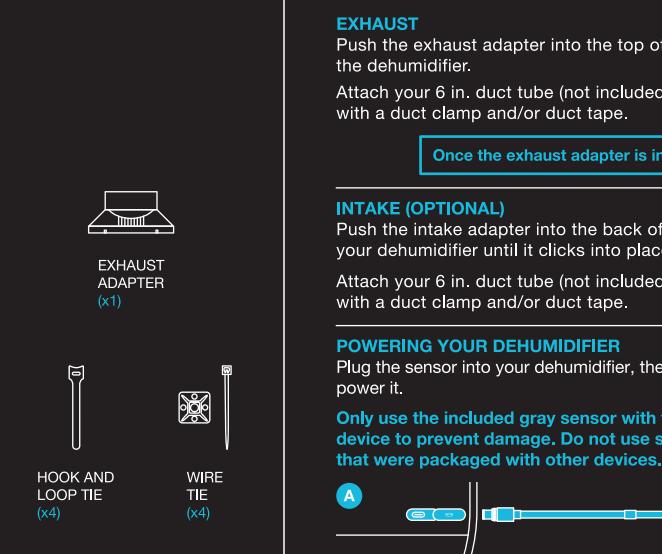

STEP 5
Plug your dehumidifier's power plug into an outlet to power it.

PRODUCT CONTENTS

4

PROGRAMMING SETTINGS

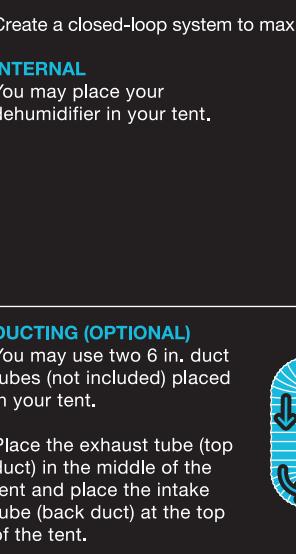

5

INSTALLATION

EXHAUST
Push the exhaust adapter into the top of the dehumidifier.

INTERNAL
You may place your dehumidifier in your tent.

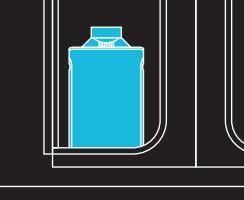

ONCE THE EXHAUST ADAPTER IS INSTALLED, YOU CANNOT REMOVE IT.

6

INTAKE (OPTIONAL)
Push the intake adapter into the back of your dehumidifier until it clicks into place.

Attach your 6 in. duct tube (not included) with a duct clamp and/or duct tape.

7

POWERING YOUR DEHUMIDIFIER
Plug the sensor into your dehumidifier, then plug your dehumidifier into an outlet to power it.

ONLY USE THE INCLUDED GRAY SENSOR WITH THIS DEVICE TO PREVENT DAMAGE. DO NOT USE SENSORS THAT WERE PACKAGED WITH OTHER DEVICES.

8

DUCTING (OPTIONAL)
You may use two 6 in. duct tubes (not included) placed in your tent.

Place the exhaust tube (top duct) in the middle of the tent and place the intake tube (back duct) at the top of the tent.

9

DO NOT USE RECLAIMED WATER.

10

CONFIGURATION SETUP

CLOSED-LOOP SYSTEM

Create a closed-loop system to maximize dehumidification.

Push the exhaust adapter into the top of the dehumidifier.

INTERNAL

You may place your dehumidifier in your tent.

ONCE THE EXHAUST ADAPTER IS INSTALLED, YOU CANNOT REMOVE IT.

Attach your 6 in. duct tube (not included) with a duct clamp and/or duct tape.

INTAKE (OPTIONAL)

You may use a duct tube to pull the air from a target area.

Insert the duct tube into your tent.

Push the intake adapter into the back of your dehumidifier until it clicks into place.

Attach your 6 in. duct tube (not included) with a duct clamp and/or duct tape.

DUCTING (OPTIONAL)

Plug the sensor into your dehumidifier, then plug your dehumidifier into an outlet to power it.

ONLY USE THE INCLUDED GRAY SENSOR WITH THIS DEVICE TO PREVENT DAMAGE. DO NOT USE SENSORS THAT WERE PACKAGED WITH OTHER DEVICES.

Place the exhaust tube (top duct) in the middle of the tent and place the intake tube (back duct) at the top of the tent.

Plug the intake tube into the back of your dehumidifier until it clicks into place.

Push the exhaust adapter into the top of the dehumidifier.

Attach your 6 in. duct tube (not included) with a duct clamp and/or duct tape.

DO NOT USE RECLAIMED WATER.

11

CONFIGURATION SETUP

OPEN-LOOP SYSTEM

You may use a 6 in. duct tube (not included) to create an open-loop system to dehumidify your tent. Attach your duct tubes with duct clamp and/or duct tape.

EXHAUST

Push the exhaust adapter into the top of the dehumidifier.

Attach your 6 in. duct tube (not included) with a duct clamp and/or duct tape.

INTAKE (OPTIONAL)

You may use a duct tube to pull the air from a target area.

Insert the duct tube into your tent.

DUCTING (OPTIONAL)

Plug the sensor into your dehumidifier, then plug your dehumidifier into an outlet to power it.

ONLY USE THE INCLUDED GRAY SENSOR WITH THIS DEVICE TO PREVENT DAMAGE. DO NOT USE SENSORS THAT WERE PACKAGED WITH OTHER DEVICES.

Place the exhaust tube (top duct) in the middle of the tent and place the intake tube (back duct) at the top of the tent.

Plug the intake tube into the back of your dehumidifier until it clicks into place.

Push the exhaust adapter into the top of the dehumidifier.

Attach your 6 in. duct tube (not included) with a duct clamp and/or duct tape.

DO NOT USE RECLAIMED WATER.

12

DRAINING WATER

PERIODIC

Push the drain tube into the drain port on the back of your dehumidifier. Then, turn it 90 degrees and push it into the drain port on the side of your dehumidifier. Turn it 90 degrees again and push it into the drain port on the front of your dehumidifier. Turn it 90 degrees again and push it into the drain port on the side of your dehumidifier. Turn it 90 degrees again and push it into the drain port on the back of your dehumidifier. Turn it 90 degrees again and push it into the drain port on the front of your dehumidifier. Turn it 90 degrees again and push it into the drain port on the side of your dehumidifier. Turn it 90 degrees again and push it into the drain port on the back of your dehumidifier. Turn it 90 degrees again and push it into the drain port on the front of your dehumidifier. Turn it 90 degrees again and push it into the drain port on the side of your dehumidifier. Turn it 90 degrees again and push it into the drain port on the back of your dehumidifier. Turn it 90 degrees again and push it into the drain port on the front of your dehumidifier. Turn it 90 degrees again and push it into the drain port on the side of your dehumidifier. Turn it 90 degrees again and push it into the drain port on the back of your dehumidifier. Turn it 90 degrees again and push it into the drain port on the front of your dehumidifier. Turn it 90 degrees again and push it into the drain port on the side of your dehumidifier. Turn it 90 degrees again and push it into the drain port on the back of your dehumidifier. Turn it 90 degrees again and push it into the drain port on the front of your dehumidifier. Turn it 90 degrees again and push it into the drain port on the side of your dehumidifier. Turn it 90 degrees again and push it into the drain port on the back of your dehumidifier. Turn it 90 degrees again and push it into the drain port on the front of your dehumidifier. Turn it 90 degrees again and push it into the drain port on the side of your dehumidifier. Turn it 90 degrees again and push it into the drain port on the back of your dehumidifier. Turn it 90 degrees again and push it into the drain port on the front of your dehumidifier. Turn it 90 degrees again and push it into the drain port on the side of your dehumidifier. Turn it 90 degrees again and push it into the drain port on the back of your dehumidifier. Turn it 90 degrees again and push it into the drain port on the front of your dehumidifier. Turn it 90 degrees again and push it into the drain port on the side of your dehumidifier. Turn it 90 degrees again and push it into the drain port on the back of your dehumidifier. Turn it 90 degrees again and push it into the drain port on the front of your dehumidifier. Turn it 90 degrees again and push it into the drain port on the side of your dehumidifier. Turn it 90 degrees again and push it into the drain port on the back of your dehumidifier. Turn it 90 degrees again and push it into the drain port on the front of your dehumidifier. Turn it 90 degrees again and push it into the drain port on the side of your dehumidifier. Turn it 90 degrees again and push it into the drain port on the back of your dehumidifier. Turn it 90 degrees again and push it into the drain port on the front of your dehumidifier. Turn it 90 degrees again and push it into the drain port on the side of your dehumidifier. Turn it 90 degrees again and push it into the drain port on the back of your dehumidifier. Turn it 90 degrees again and push it into the drain port on the front of your dehumidifier. Turn it 90 degrees again and push it into the drain port on the side of your dehumidifier. Turn it 90 degrees again and push it into the drain port on the back of your dehumidifier. Turn it 90 degrees again and push it into the drain port on the front of your dehumidifier. Turn it 90 degrees again and push it into the drain port on the side of your dehumidifier. Turn it 90 degrees again and push it into the drain port on the back of your dehumidifier. Turn it 90 degrees again and push it into the drain port on the front of your dehumidifier. Turn it 90 degrees again and push it into the drain port on the side of your dehumidifier. Turn it 90 degrees again and push it into the drain port on the back of your dehumidifier. Turn it 90 degrees again and push it into the drain port on the front of your dehumidifier. Turn it 90 degrees again and push it into the drain port on the side of your dehumifier. Turn it 90 degrees again and push it into the drain port on the back of your dehumidifier. Turn it 90 degrees again and push it into the drain port on the front of your dehumidifier. Turn it 90 degrees again and push it into the drain port on the side of your dehumidifier. Turn it 90 degrees again and push it into the drain port on the back of your dehumidifier. Turn it 90 degrees again and push it into the drain port on the front of your dehumidifier. Turn it 90 degrees again and push it into the drain port on the side of your dehumifier. Turn it 90 degrees again and push it into the drain port on the back of your dehumidifier. Turn it 90 degrees again and push it into the drain port on the front of your dehumidifier. Turn it 90 degrees again and push it into the drain port on the side of your dehumifier. Turn it 90 degrees again and push it into the drain port on the back of your dehumidifier. Turn it 90 degrees again and push it into the drain port on the front of your dehumifier. Turn it 90 degrees again and push it into the drain port on the side of your dehumifier. Turn it 90 degrees again and push it into the drain port on the back of your dehumidifier. Turn it 90 degrees again and push it into the drain port on the front of your dehumidifier. Turn it 90 degrees again and push it into the drain port on the side of your dehumifier. Turn it 90 degrees again and push it into the drain port on the back of your dehumidifier. Turn it 90 degrees again and push it into the drain port on the front of your dehumidifier. Turn it 90 degrees again and push it into the drain port on the side of your dehumifier. Turn it 90 degrees again and push it into the drain port on the back of your dehumidifier. Turn it 90 degrees again and push it into the drain port on the front of your dehumidifier. Turn it 90 degrees again and push it into the drain port on the side of your dehumifier. Turn it 90 degrees again and push it into the drain port on the back of your dehumifier. Turn it 90 degrees again and push it into the drain port on the front of your dehumidifier. Turn it 90 degrees again and push it into the drain port on the side of your dehumifier. Turn it 90 degrees again and push it into the drain port on the back of your dehumidifier. Turn it 90 degrees again and push it into the drain port on the front of your dehumidifier. Turn it 90 degrees again and push it into the drain port on the side of your dehumifier. Turn it 90 degrees again and push it into the drain port on the back of your dehumidifier. Turn it 90 degrees again and push it into the drain port on the front of your dehumifier. Turn it 90 degrees again and push it into the drain port on the side of your dehumifier. Turn it 90 degrees again and push it into the drain port on the back of your dehumidifier. Turn it 90 degrees again and push it into the drain port on the front of your dehumifier. Turn it 90 degrees again and push it into the drain port on the side of your dehumifier. Turn it 90 degrees again and push it into the drain port on the back of your dehumidifier. Turn it 90 degrees again and push it into the drain port on the front of your dehumifier. Turn it 90 degrees again and push it into the drain port on the side of your dehumifier. Turn it 90 degrees again and push it into the drain port on the back of your dehumidifier. Turn it 90 degrees again and push it into the drain port on the front of your dehumifier. Turn it 90 degrees again and push it into the drain port on the side of your dehumifier. Turn it 90 degrees again and push it into the drain port on the back of your dehumifier. Turn it 90 degrees again and push it into the drain port on the front of your dehumifier. Turn it 90 degrees again and push it into the drain port on the side of your dehumifier. Turn it 90 degrees again and push it into the drain port on the back of your dehumidifier. Turn it 90 degrees again and push it into the drain port on the front of your dehumifier. Turn it 90 degrees again and push it into the drain port on the side of your dehumifier. Turn it 90 degrees again and push it into the drain port on the back of your dehumidifier. Turn it 90 degrees again and push it into the drain port on the front of your dehumifier. Turn it 90 degrees again and push it into the drain port on the side of your dehumifier. Turn it 90 degrees again and push it into the drain port on the back of your dehumidifier. Turn it 90 degrees again and push it into the drain port on the front of your dehumifier. Turn it 90 degrees again and push it into the drain port on the side of your dehumifier. Turn it 90 degrees again and push it into the drain port on the back of your dehumidifier. Turn it 90 degrees again and push it into the drain port on the front of your dehumifier. Turn it 90 degrees again and push it into the drain port on the side of your dehumifier. Turn it 90 degrees again and push it into the drain port on the back of your dehumidifier. Turn it 90 degrees again and push it into the drain port on the front of your dehumifier. Turn it 90 degrees again and push it into the drain port on the side of your dehumifier. Turn it 90 degrees again and push it into the drain port on the back of your dehumidifier. Turn it 90 degrees again and push it into the drain port on the front of your dehumifier. Turn it 90 degrees again and push it into the drain port on the side of your dehumifier. Turn it 90 degrees again and push it into the drain port on the back of your dehumidifier. Turn it 90 degrees again and push it into the drain port on the front of your dehumifier. Turn it 90 degrees again and push it into the drain port on the side of your dehumifier. Turn it 90 degrees again and push it into the drain port on the back of your dehumidifier. Turn it 90 degrees again and push it into the drain port on the front of your dehumifier. Turn it 90 degrees again and push it into the drain port on the side of your dehumifier. Turn it 90 degrees again and push it into the drain port on the back of your dehumifier. Turn it 90 degrees again and push it into the drain port on the front of your dehumifier. Turn it 90 degrees again and push it into the drain port on the side of your dehumifier. Turn it 90 degrees again and push it into the drain port on the back of your dehumidifier. Turn it 90 degrees again and push it into the drain port on the front of your dehumifier. Turn it 90 degrees again and push it into the drain port on the side of your dehumifier. Turn it 90 degrees again and push it into the drain port on the back of your dehumidifier. Turn it 90 degrees again and push it into the drain port on the front of your dehumifier. Turn it 90 degrees again and push it into the drain port on the side of your dehumifier. Turn it 90 degrees again and push it into the drain port on the back of your dehumidifier. Turn it 90 degrees again and push it into the drain port on the front of your dehumifier. Turn it 90 degrees again and push it into the drain port on the side of your dehumifier. Turn it 90 degrees again and push it into the drain port on the back of your dehumidifier. Turn it 90 degrees again and push it into the drain port on the front of your dehumifier. Turn it 90 degrees again and push it into the drain port on the side of your dehumifier. Turn it 90 degrees again and push it into the drain port on the back of your dehumidifier. Turn it 90 degrees again and push it into the drain port on the front of your dehumifier. Turn it 90 degrees again and push it into the drain port on the side of your dehumifier. Turn it 90 degrees again and push it into the drain port on the back of your dehumidifier. Turn it 90 degrees again and push it into the drain port on the front of your dehumifier. Turn it 90 degrees again and push it into the drain port on the side of your dehumifier. Turn it 90 degrees again and push it into the drain port on the back of your dehumidifier. Turn it 90 degrees again and push it
