

OUTSIDE

INSTALLATION

STEP 5

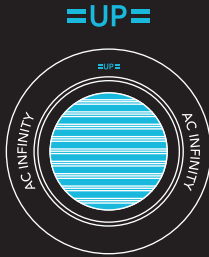

Place the duct adapter on the outside of the vent port. Twist the duct adapter and port shell together until it is secured onto the grow tent wall.

Make sure the port shell threading is clear of obstruction in order to create a tight seal.

STEP 6 — NO DUCTING

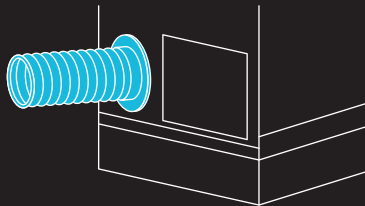

Once the vent is secure, you can rotate the vent to adjust the angle of the shutters.

INSTALLATION

STEP 6 — DUCTING*

You may attach ducting to the duct adapter using duct clamps or duct tape.

*Duct tube, duct clamp, and duct tape not included.

CLEANING

Periodically rinse the vent filter with warm water.

INNOVATIONS IN ENVIRONMENTAL CONTROLS

AC Infinity is a technology company focused on environmental controls in audio/video, HVAC, and agricultural applications. The products are engineered from the ground up and controllers coded in-house by its team in Los Angeles, California.

The company was founded on the principle of working closely with customers to develop innovative products. Dependable service and an ongoing commitment to product quality are the foundations of the business's values.

WARRANTY

Our warranty program is our commitment to you, the original customer, that product sold by AC Infinity Inc. will be free from defects for TWO YEARS from the date of purchase. If you have any issues with this product, contact us and we'll happily resolve your problem or issue a full refund!

INSTALLATION

STEP 1

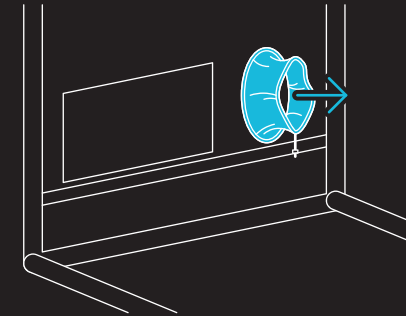

Place filter flush into the
back of the duct adapter.

Set aside within reach
for later use.

STEP 2

Invert tent port cinch
into the grow tent.

INSTALLATION

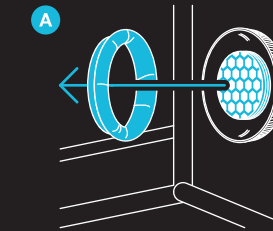

STEP 3

Roll the sleeve and drawstring
of the tent cinch towards the
reflective mylar wall forming a
tight circular donut shape.

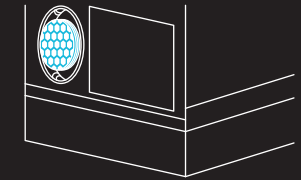

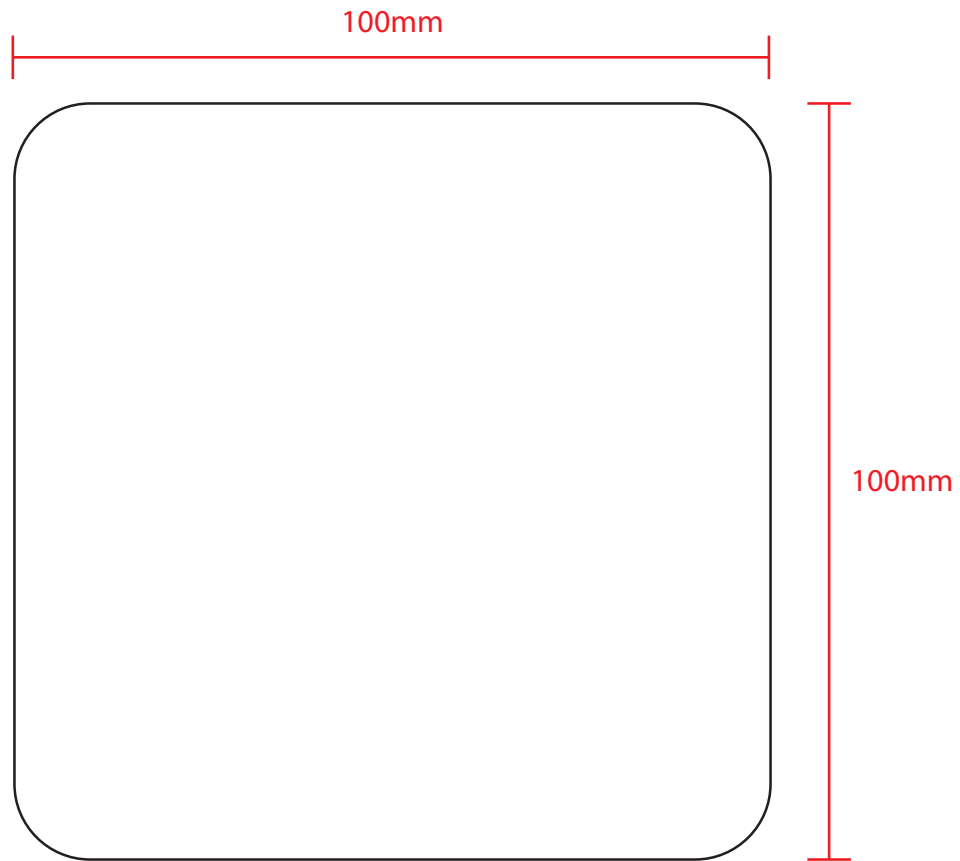

STEP 4

Fit the rolled port cinch into the port shell.
Hold it in place for the following step.

B Make sure the hex mesh is visible
outside through the open vent port.

CORNER RADIUS: 10mm
